### TENTATIVE MEMBERS OF THE COMMITTEE

The committee “consists of at least four members from the faculty and senior research staff. One of these is the student’s thesis advisor, the others are chosen so that they represent a sufficiently broad spectrum of research specialties to ensure a ‘general’ rather than a ‘topical’ examination.”

EAPS Grad. Studies Manual

The above named student has discussed these two proposed research topics with me and I find them suitable for a general exam.
